 - Election and Inauguration: Teachers talked about some of the obstacles and concerns it has caused in the buildings. Teachers also talked about how these situations are being handled.
 - We still need members to volunteer to be “Principal of the Day” for each of the buildings.
 - As much as possible try to attend regular scheduled semester meetings and be as active as possible in assisting principals with Diversity Activities and improving the progress of Students of Color and their Families. Members can call principals to talk and meet at times other than the scheduled bldg. committee meeting dates if you can't make the scheduled meeting dates and times.

- IV. Troubleshooting Concerns in Buildings
 - After talking with the HS administration and counselors they would rather committee members meet with freshmen than seniors. Committee members interested in talking with freshmen let Ron know what day and time. The discussion would include grades and any concerns they have.
